

WORKSHEET 6

RECORDING SHEET

Stand still. Look around. Look again. It is easy to miss fungi so you need to look closely, not just glance at an area. When your eyes and brain are accustomed to searching for fungi you will see them everywhere - including places you have already looked in!

Kind of fungus (e.g. mushroom, bracket)	Name of fungus (if known)	Number of fruit bodies seen	Describe where the fungus was found	Draw a picture of the fungus
