

WORKSHEET 15

WHAT'S IN A NAME?

Fungi often have two names, a COMMON name and a SCIENTIFIC name.
Use a book (or your knowledge of Latin!) to match up the two names
for these fungi.

The sickener

Peppery milk cap

Bleeding brown mushroom

Blackening wax cap

Amethyst deceiver

Weeping widow

Lacrymaria velutina

Hygrocybe nigrescens

Laccaria amethystea

Russula emetica

Lactarius piperatus

Agaricus haemorrhoidarius
